

THE MANUFACTURING REVOLUTION

You make it. It's time you own it.

For decades, Indian manufacturers have made the world's products while others owned the label, the customer and the profit. That era ends now.

factori.com is onboarding 10,000 manufacturers to sell under their own brands — with at most 20 manufacturers per category. Once your category fills, it closes.

Be one of the first 10,000.

Your Brand

Not someone else's label

Steady Demand

Sales every single day

On-Time Payments

No credit cycles. Ever.

600+

Manufacturers Already Onboard

20,000+

Online Storefronts

Experience Centres

1.5 Acre

Fulfilment Centre, Bengaluru

"To enable Indian manufacturers to access global demand consistently, transparently and profitably — without increasing their sales, marketing or working-capital burden."

Three problems every manufacturer knows too well. Solved.

❌ THE LABEL PROBLEM

You do the hard work. Someone else puts their label on it — and keeps the profit.

✅ THE FACTORI WAY

Own your brand — at zero cost.

Build and promote your own brand (or your own label) on factori.com. Your name on the product, your reputation growing with every order. We promote it for you — at no cost.

❌ THE DEMAND PROBLEM

The next big order? It may come. It may never come. You have no visibility.

✅ THE FACTORI WAY

Demand that never sleeps.

Regular sales on factori.com—India's B2B platform for brands, institutions, corporates and governments — plus our dropshipping network of 20,000+ e-commerce websites selling your products every day.

❌ THE PAYMENT PROBLEM

You wait months through long payment cycles — financing everyone else's business.

✅ THE FACTORI WAY

Paid on time. Every time.

- Ready-inventory products: paid as they sell, on B2B or dropshipping.
- Contract manufacturing orders: paid on delivery to our fulfilment centre.

No chasing. No credit cycles.

One entry. Every door opens.

Access to everything on factori.com begins with one commitment— and only one.

THE ENTRY — STEP 1

List your products. With ZERO listing fee.

List your products on the platform and maintain reasonable inventory at our fulfilment centre. This is the mandatory entry — and the key that unlocks all three demand engines below.

01

B2B Platform Sales

Your products sold on factori.com to brands, institutions, corporates and governments — in India and worldwide.

02

20,000+ Dropshipping Storefronts

Your products listed across 20,000+ e-commerce websites. Retailers promote and bring orders — we pick, pack and ship.

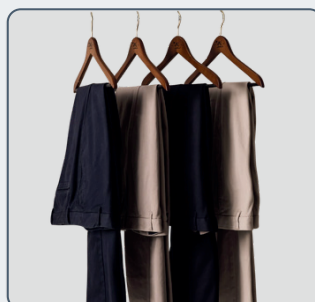

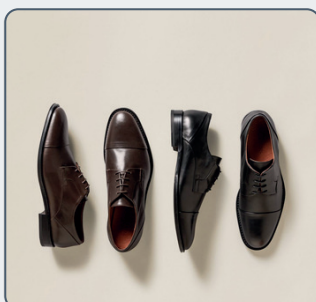

03

Contract Manufacturing Orders

We promote and secure contract manufacturing orders — only for products listed with inventory in our fulfilment centre. Paid on delivery.

No listing, no access. Listed partners get everything.

We work with at most 20 manufacturers per category. Quality over quantity.

A lifetime opportunity. A limited window.

We are onboarding India's first 10,000 manufacturing partners —and we work with at most 20 manufacturers per category. Once a category fills, it closes. The factories that join now will become the brands India is known for over the next decade.

- ✓ Your own brand, promoted at zero cost
- ✓ Sales every day across B2B and 20,000+ storefronts
- ✓ Payments as products sell — or on delivery for contract orders
- ✓ Zero marketing spend, zero sales team needed
- ✓ A national fulfilment and technology backbone behind you
- ✓ Contract manufacturing pipeline for listed products

THE ASPIRATION

10,000 manufacturers. 20 per category. India's brands, made for the world.

"India's manufacturing strength lies not just in capacity — but in owning the brand, the demand and the payment terms. factori.com is building that future, and the first 10,000 partners will own it."
